SUBMIT APP

On click on submit app
,the section opens up
and prmopts the user to
create a manifest file , it
also provides a template of
the manifest file to the user.
the user can then upload their app

SUBMIT APP

The uploaded file should have a manifest file
dont have one ?

Download it   *here*

Upload APP

from here there are 3 things
that can happen

1. The user has filled the manifest
and evrthing is proper

2. The user has filled the manifest
and there are few mistakes and some
icomplete feilds

3. there is no manifest file

this step is skipped if manifest is fine

MANIFEST MANAGER

few of the feilds in the manifest are incomplete , kindly fill the following
and we are all ready to go

Description: *

Store to-do items on your device, and be notified when the deadlines are up. This is just a test, so reject and ignore ;-)

This description will appear on the details page.   Some HTML supported.

Categories: *   Pick one or two categories.

Done

MANIFEST MANAGER

You seem to have forgotten to create a manifest file , kindly fill the following
and we will create one for you

Homepage:

Support Website:

Support Email: *

Does your app require Flash support?
- Yes ○ No

Screenshot or video of your app: *

Add a Screenshot or Video...

Done

For case 2 and 3 , we create a pop up of a ui so that user can enter his/her detials and we can create a manifest on the go

Congrats

Your app is ready and will be revied in 3 days
